

Critical Information Summary: WIFIHUB VOIP BUSINESS (PAYG)

Information about the Service

Service Description	Calls made using the service are connected using an Internet connection rather than the copper phone lines of a Public Switched Telephone Network (PSTN) that a regular landline uses. This is called Voice over IP or VoIP. It allows 2 concurrent calls inbound or outbound to the public phone network via numbers hosted on the Wifi Hub Network, as well as access to send SMS.	
Minimum Term(s)	24 Months	No Contract
